Audience:

Year 6 Teachers

English and Mathematics Subject Leaders

**Implications for teaching and learning in English
and mathematics in Year 6 – preparing children to
reach the expected standard and high score**

This course focuses on preparation for the grammar,
punctuation and spelling, reading and mathematics
KS2 assessments.

The course is suitable for teachers new to year 6,
those returning to year 6 and others who would
welcome updated advice and teaching ideas.

28th November 2025

9:30 am – 3:45 pm

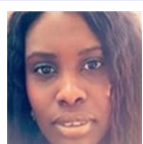

(Year 6)

Course presenters:

Steph King is a mathematics education adviser with 35 years of experience in primary education, including senior leadership, subject leadership and ten years as a mathematics adviser for a London local authority, before working independently.

She is an established author for a number of publishers, writing for both UK and international curricula. Steph leads professional development courses in the UK and abroad. She has presented at national conferences and facilitates NPQ programmes for leading primary mathematics.

Shareen Wilkinson (née Mayers) is a leading primary education adviser specialising in teaching and learning, English, assessment and leadership. She also currently works in schools as Executive Director of Education for a multi-academy trust. Shareen was previously an LA lead primary adviser for Sutton. She is an

established educational author, writer and editor specialising in all aspects of English. Shareen has written educational resources and books for a number of publishers.
